LANGUAGE

- English
- Chinese
- Malay

SKILL

- **Programming Languages:** Python, Java, C#
- **Web Development:** HTML, CSS, JavaScript
- **Database:** SQL
- **Tools:** NetBeans, Adobe Premiere Pro, Adobe Photoshop

ACADEMIC PROJECT

Web-Development Project - Created a travel recommendation website inspired by TripAdvisor using HTML, CSS, and JavaScript. Featured tourist attractions, user ratings, and responsive layout.

Java Programming - Built a functional Java application using NetBeans, demonstrating skills in object-oriented programming, user interface design, and logic flow.

Digital Image Production - Designed a promotional brochure for the National Museum, applying image editing, layout design, and branding skills using Adobe Photoshop.

WORK EXPERIENCE

AIMS Data Centre - IT Support Intern Oct 2023 - Dec 2023

- Assisted with day-to-day IT support operations including PC troubleshooting, basic networking, and hardware setup.
- Helped with minor installations and configuration of IT equipment within the data centre.
- Observed and supported the IT team during server maintenance routines, gaining hands-on exposure to data centre practices.

Warehouse Assistant Leather Avenue - Selangor Jan 2022 - Mar 2022

- Managed stock receiving, sorting, and labelling to ensure accurate inventory flow.
- Assisted in packing and quality checking of retail goods for dispatch.
